

## Items

## Accepted / Requirements

### Timber

- Treated, greater than 500mm long
- Untreated for firewood
- Ideally timber wouldn't have nails in it but we de-nail if we can
- Particle boards only if whole sheets and dry

### Gib

- Large, clean, dry pieces
- Gib or gypsum is also good to incorporate into clay sites as an ameliorant for clay soils and can be laid down on or in the ground where it will break down so you may be able to use it on your site.

### Building Wrap

- Only if you know it is plastic type No4 (LDPE) and clean, others are landfilled

### Plumbing Fittings

- Those that may be useful for others and sell through Anamata- for gardening or plumbing

### Cardboard and Paper

- Dry and clean- must not be mixed in with other products

### Timber Strapping

- Some minor use on island for craft
- Metal needs to be removed

### **All Metal**

- Rusty or not
- Including electrical cables and wires

### **Insulation**

- If large, dry and good condition will try to sell through Anamata
- Otherwise TS

### **Carpet**

- Wool- either for house or garden cover
- Synthetic or mix- only if large and good quality for use in a home

### **Polystyrene**

- Clean, white polystyrene
- Ideally, tape is removed.

### **Food Waste**

- Must be delivered to Anamata, not the landfill if to be composted
- Must not be mixed in with other waste
- Green- not herbicide treated- composted or mulched

### **Household Recyclables**

- If reasonably clean (rinsed), deliver to Anamata or put out for kerbside in approved recycling bin or bag eg drink bottles, household plastics, tins

### **Garden / Green Waste**

- Must be delivered to Anamata (charge applies)
- Must not be herbicide treated- landfill if herbicide treated
- Not stumps or wood mixed with soil or rubble or other materials as it goes through a mulcher
